

OUR WORK IN PHILIPPINES JUST STARTED

Despite All Progress Made Task of United States is Far From Complete

STIMSON SUBMITS REPORT

Urges Completion of Army Posts at Pearl Harbor and Panama Canal

ASKS PAY FOR THE MILITIA

Washington, Dec. 9.—Unsparring condemnation of those who would from "misplaced sentimentality or lazy self-interest," cast the Philippines upon the world in the state of helplessness and before they had acquired the full benefits of American civilization, is a strong feature in the annual report of Secretary of War Henry L. Stimson. Many other subjects of interest are treated in the report, such as the relations of the National Guard to the Army, the improvement in the Army tactical methods, the inadequacy of the present reserve law, the crying need of citizenship for the Porto Ricans, the conservation of the national water powers in navigable streams and the advisability of amending the Panama Canal Tolls Act so as to reimburse tolls on American coastwise shipping leaving the water way.

Anti-Canteen Law Makes Vice,—Dealing first with purely military subject, the Secretary states the strength of the regular Army at the beginning of the present fiscal year at \$2,295, an increase during the year of 159 officers and 7,324 enlisted men. He says the spirit of the personnel of the army continues to improve, attributable not only to the work of the service schools and the General Staff, but to the practical opportunities afforded by the recent maneuvers and changes in organization and methods. Left officers are speedily discovered under the searching tests of field conditions. "One of the surest ways of

NEW PLAN FOR CHAMPIONSHIP

AUGUST HERMANN WOULD HAVE MAJOR LEAGUE TEAMS PLAY 64 GAMES.

New York, Dec. 9.—Roger Bresnahan's claim against the St. Louis club for \$40,000 in satisfaction of his five-year contract, terminated by the club's owner at the end of the last year, was the chief subject discussed today by the directors of the National league, whose annual meeting will begin here tomorrow. Both the club and Bresnahan are represented by counsel. Meanwhile it is understood, Bresnahan still is considering an offer to work behind the bat and assist Fred Clarke in the management of the Pittsburgh club.

August Hermann, of Cincinnati, chairman of the national commission, spoke with renewed hope today of his proposed inter-league championship series of sixty-four games, after each major league circuit has played 112 games. It is probable the plan will come up for discussion at the annual meeting tomorrow. Hermann purposes a joint meeting of the major leagues to go over the situation. Although McGraw is quoted as saying he is a candidate for president of the National league, the predictions were that President Lynch will be re-elected tomorrow without much opposition.

RUNS AMUCK WITH IRON BAR; MANY ARE INJURED

Lima, O., Dec. 9.—Armed with a heavy iron bar, with which he felled prisoners right and left, Herbert Mowery, aged 35, ran amuck in the outside corridor of the city prison today and after injuring a dozen or more prisoners and the workhouse superintendent, jumped from a second story window of the jail and fled. The police captured him after he had terrorized people in the public square. Three prisoners and a workman are in a serious condition. Mowery has been suffering from delirium tremens.

Brief Items Hot Off the Wires

Fourteen-inch Gun Bursts.
Sandy Hook, N. J., Dec. 9.—A new fourteen inch gun burst today while being tested on the proving grounds. It is considered remarkable no one was hurt.

Lumber Schooners Arrive.
Chicago, Dec. 9.—The lumber schooners Butcher Boy, Cora A. and Trier, two weeks overdue, arrived here today. They were covered with ice, but were in good condition. The captain stated they put into upper lake ports to escape Thursday's gale.

Champions British Naval Program.
London, Dec. 9.—In the Commons today, First Lord of the Admiralty Churchill, referring to the three battleships to cost thirty-five millions, given by Canada to the British empire said: "Aid given by Canada should be in addition to the existing British program, thus sweeping away the possibility of Great Britain curtailing its own naval program."

Commerce Commission Upheld.
Washington, Dec. 9.—The jurisdiction of the interstate commerce commission over the union stock yards in Chicago was upheld by the supreme court today, which sustained the commission's right to bring suit to have the company's contract to pay \$50,000 to Pfister & Sons, packers, for erecting a plant adjacent to its track, annulled as amounting to a rebate.

Mauretania Safe.
London, Dec. 9.—No confirmation of the published rumors of an accident to the Mauretania could be obtained here or at Queenstown. On the contrary the vessel was reported by wireless 260 miles west of Broomhead at 11:30 last night and no mention was made in the dispatch of an accident of any kind.

Queenstown, Dec. 9.—A wireless from the Mauretania at noon, 570 miles west of here, said: "All's well."

Earthquake Shocks Recorded.
Washington, Dec. 9.—Earthquake shocks which lasted 23 minutes, apparently 1,500 miles from Washington, was recorded by the seismograph at Georgetown university between 3:44 and 4:07 this morning. It is thought eruptions of Alaskan volcanoes may have broken out again. The seismograph at St. Ignace college at Cleveland, Ohio, also recorded several shocks early this morning. It is estimated they were 1,500 to 2,000 miles away, probably on the Pacific coast in southern California or Mexico.

Bicycle Records Broken.
New York, Dec. 9.—All records had been broken at 8 o'clock this morning at the end of the eighth hour of the twentieth annual six-day bicycle race at Madison Square Garden. In that time, fifteen teams, which started at midnight, were tied at 159 miles and 2 laps. This was three miles and eight laps better than the record. At 6:30 this morning, Bertet of the Franco-American team skidded and upset at a turn. He quickly remounted and continued the race apparently uninjured and without losing his position.

Investigates Strike Assaults.
Indianapolis, Ind., Dec. 9.—Assaults committed during the iron workers' strike were investigated by the government in the cross-examination of Patrick Farrell of New York, defendant in the "dynamite" trial today. Out of \$10,000 contributed by the international union to sustain the strike in New York, Farrell admitted he furnished bonds for and paid the fine of union men. Sixty assaults were used as weapons, and in which one man was thrown into the river and a policeman who attempted to quell the riot killed, were charged by the government as being part of the "reign of terror," which preceded the general use of dynamite. The strike never has been called off.

ONE TERM PLAN CURE FOR EVILS

Senator Works, in Speech, Advocates Just Six Years in Office For President

GREAT POWERS OFTEN MISUSED

Executive Apt to Favor Big Interests to Gain Re-Election

CAMPAIGN DONATIONS MENACE

Washington, Dec. 9.—In a speech today in the Senate upon his resolution for a constitutional amendment that would provide a single six year presidential term, Senator Works, of California, identified since his entry into the Senate with the Progressive Republican faction, made a strong criticism of Theodore Roosevelt and the Progressive party for their affiliation with George W. Perkins and other representatives of large corporations.

Senator Works declared that both Roosevelt and Taft deserved defeat. He asserted that Roosevelt, when president, had withheld action against the harvester trust with the natural result that Mr. Perkins had been one of the chief Roosevelt backers in the fight this year for the Progressive nomination; and, with equal emphasis he declared that President Taft had "lost the respect and good will of many good people by going upon the stump against Col. Roosevelt." The attack upon Roosevelt came in connection with Senator Works' assertion that the president's office had been used to prevent adverse action against corporations.

Corporation Influence.
"I am not saying that Mr. Roosevelt acted out of improper motives in dealing with the Harvester trust or the Steel trust. He may have been perfectly satisfied that the course taken by him was the proper and just course. I call attention to these instances of presidential favor and what followed them, as illustrating the power that exists in the hands of a president in his first term, to secure his election to a second term."

Facts brought out in the senatorial investigation of campaign expenditures were cited by Senator Works to show the extent to which "trusts and their millionaire stockholders" had contributed to campaign contributions. He declared that "privilege seeking corporations support the public official who will grant them privileges."

"The investigation of campaign contributions," he said, "is a menace to the republic."

THIS IS HANGMAN'S WEEK IN OREGON; FIVE TO DIE

Salem, Ore., Dec. 9.—This is to be hangman's week at the Oregon State penitentiary, five murderers being doomed to pay the death penalty there Friday. Several of the condemned men have been under death sentence for many months, their execution being delayed until the voters of Oregon passed upon the proposal to abolish the death penalty at last month's election. The referendum showed a substantial majority in favor of hanging, whereupon Governor West, though personally opposed to capital punishment, declared that he would proceed with the executions.

The five men slated to forfeit their lives on the scaffold are: Frank Garrison, convicted of killing Roy Perkins in Coos county; Mike Morgan, convicted of killing John York in Josephine county; Noble Foulger, convicted of killing Louis Gilbert in Klamath county, and John Taylor, convicted of killing Donald Stewart and George Hastings in Multnomah county. Several other murderers are in the state prison under death sentence, but in their cases appeals to the supreme court have acted as a stay.

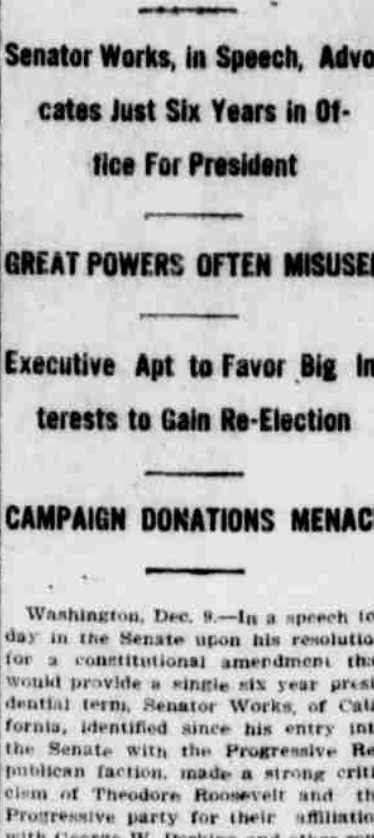

ITALIAN ESTABLISHMENT IN CHICAGO WRECKED BY BOMB

Chicago, Dec. 9.—A dynamite bomb exploded this morning in the doorway of the meat market of Nicholas Cardoeno, in the west side Italian quarter. It wrecked the building and shattered the windows of adjacent structures. The explosion was heard a mile away.

Cardoeno had received a number of letters demanding money. There is no trace of the alleged "black hand" agents.

Fifty men sleeping above the market were thrown from their beds by the force of the explosion. Three stores adjoining were damaged. More than a thousand glass windows were broken. The property damage is \$25,000. One arrest has been made.

FASHION'S LATEST EDICT

"Maid of 1913 Should Be Curvesless."

MOURNERS FIND "CORPSE" IS ALIVE

NEW YORK SPORTING MEN MISLED BY REPORT OF EX-FIGHTER'S DEATH.

New York, Dec. 9.—An imposing array of taxicabs carried many veteran sporting men of New York city to Sheephead Bay yesterday to attend the funeral of "Brooklyn Jimmie" Carroll, an old time prize fighter. When word of his death from injuries in a train accident reached Broadway all of his old admirers agreed to attend the funeral in a body.

When they reached the Carroll house they were a little surprised there was no crape on the door.

"Are we too late for the last sad rites?" asked Jack McAuliffe, the former world's lightweight champion.

The answer came promptly from the darkened hallway. It was in Jimmie Carroll's own voice, and the language was emphatic.

"I'll prove to the man who started this story of my death that I am far from dead," cried Carroll as the astonished men filed into the parlor.

He explained he had been injured as reported, but now was well on the road to recovery.

MARIGOLD IN SHELTER.

Unable to Remove Crew From Manitou Lighthouse Station.

The government lighthouse tender Marigold is in shelter at Bete Gris and until the storm, which is raging over Lake Superior subsides, the crew at the Manitou Island Light, including Keeper Thomas J. Bennett of Eagle River, First Assistant Paul E. Kanowski and Second Assistant George Krause are held prisoners at their station. According to the schedule prepared by the government, the Manitou crew was to have been taken to the mainland on Saturday, but from present indications it will be impossible to reach Manitou Island until tomorrow, and it may be somewhat dangerous, even then.

The Marigold removed the crew at Stannard Rock last Thursday and on Friday brought the crew from the Rock of Ages light to the mainland. The sea became so rough, however, that attempts to reach the Manitou Island Light were abandoned Saturday, Sunday and today. Keeper William Hilbert will remain at his post at the Bete Gris light, which is on the mainland, throughout the winter. Keeper John Nolan of the Eagle Harbor light and assistant Elmer Burns, have already relinquished their duties. After visiting Manitou Island, the Marigold will visit the Apostle Islands, near Ashland, Wis., this being the last station on the lakes at which the light will be dimmed.

Difficulty has frequently been experienced in reaching the Manitou Island light to remove the crew at the close of the season of navigation, and several narrow escapes have been reported. A distance of several miles separates the island from the mainland, almost at the extreme end of Keweenaw Point and the island is not easy of access even in mild weather.

INSPECTS PAROCHIAL SCHOOLS.

Right Rev. Bishop Els, of Marquette, head of the Marquette diocese, was here the latter part of the week inspecting the parochial schools. He expressed himself highly pleased with the conduct and attendance of these schools. Ed. Watkowski, principal of St. Anthony's Polish school, was personally complimented by the bishop in the efficiency and standard of the pupils under his care.

TWO NEGRO THUGS MAKE RICH HAUL

ROB DIAMOND IMPORTER OF \$27,500 WORTH OF GEMS AND \$1,600 IN MONEY.

Chicago, Dec. 9.—Jos. Merochnick, a diamond importer of New York, was robbed of \$27,500 worth of unset diamonds, and \$1,600 in currency here last night by two negroes, according to a report he made to the police. He was beaten on the head and one of his hands was slashed by a knife. The robbery took place on Michigan Boulevard, near the Illinois Central railroad station.

Woman Holds Up Clerk.
John Mack, a clerk reported to the police he had been held up by a woman footpad and robbed of \$22 early this morning at State and 22nd streets. She pointed a revolver at Mack's head, and after extracting the currency from his pockets the woman said, "I'll give you car fare." She handed the victim a quarter and disappeared.

Important Case Instituted.
Madison, Wis., Dec. 9.—What is declared to be the most far-reaching and most significant prosecution ever brought under child labor laws in America was instituted today by the state of Wisconsin against the Diamond Match Co. Service was secured on the officials of the company's plant at Oshkosh. The action is for fines aggregating \$22,400, the maximum total possible under the statutes. It enumerates 224 specific violations.

PUGO REPUDIATES REPORTED PLANS

CHAIRMAN OF THE MONEY PROBE WARNS AGAINST PUBLISHED STATEMENTS.

Washington, Dec. 9.—The House money trust investigation committee got down to work today after a recess of several months. The program for the next few days includes the calling as witnesses several New York bankers, including Jacob H. Schiff and some representatives of the New York stock exchange.

At the opening session today Chairman Pugo made a statement in which he repudiated published reports of what were purported to be the committee's intentions for the course of the inquiry. He said:

"The committee feels that the many unauthorized, misleading and inspired reports that have been circulated concerning its work and plans, should be corrected and that the public should be warned against placing any credence in them. There has been a consistent and hostile effort in certain directions to embarrass the inquiry. No statements have been or will be made or authorized in behalf of the committee at any time except such as may be openly announced at the hearings."

"At no time has there been any friction, misunderstanding or difference either among the members or with or between counsel."

The first witness was Wm. W. Cloud, president of the State Bank of Maryland. Counsel Undermyer, for the committee, took up the examination. Cloud said his bank applied for clearing house privileges but was refused because it was not a member of the Baltimore clearing house, but desired to clear through another bank that was.

Does the Baltimore clearing house prescribe the rules which prevent a bank making its own price for exchange on out of town checks? asked Undermyer.

"Yes, it amounts to that," answered Cloud.

"That's throttling competition, isn't it?"

"Well, I wouldn't say throttling," said the witness.

Waldo Newcomer, manager of the Baltimore clearing house, declared the clearing houses of the country are beneficial and any attempt at government regulation would hamper their efforts.

INTER-SE DANCING PARTY.

To Entertain at Light Guard Armory on December 23.

The members of the Inter-Se club have arranged for a dancing party in the Calumet Light Guard armory on the evening of Dec. 23. The date is selected during the Christmas holidays season, when many students will return from their colleges to visit their parents. The armory will be appropriately decorated for the occasion and the C. & H. orchestra will be engaged to render a program of dance numbers.

BIG CONFIRMATION CLASS.

A class of 120 children received their first communion at the St. John's Croatian church yesterday morning, mass being celebrated by Rev. Fr. Medin. In the afternoon, a class of 300 children attended a special service and took the total abstinence pledge.

JURY DECIDES THAT AREBACH IS GUILTY MAN

Chicagoan Charged With Killing Harry Fisher, Business Partner, Is Convicted

VICTIM WAS HEAVILY INSURED

Friendship Between Prisoner and Widow of Deceased Is the Motive Alleged

ACCIDENT CLAIMED BY DEFENSE

Baldwin, Mich., Dec. 9.—A jury in the circuit court yesterday declared O. M. Arebach guilty of first degree murder for the shooting of his partner, Harry Fisher, a Chicago business man and promoter. Fisher was killed in the woods near here last September, while the two men were on a hunting trip.

The case was given to the jury Saturday evening, and when the verdict was announced at 5:30 o'clock yesterday morning only the prisoner, his counsel, court attendants and Judge Withey were in the court room.

Arebach, standing beside the sheriff, heard the verdict in silence. His face was clouded to a deep ashen, but he uttered no word. Sentence will be pronounced on Monday. Arebach's counsel gave notice of an appeal to the supreme court.

The trial began last Monday, covering only six days. All the evidence introduced by the state was circumstantial, there being no witnesses of the shooting.

Fisher, his wife and children, and Arebach came here last summer, taking up their residence on a fruit farm which Fisher had purchased near Big Star Lake. On the morning of Sept. 13, taking with them only a high-powered rifle, the two men went into the woods to hunt partridges. A short time afterwards Arebach rushed into a nearby farm house and reported that Fisher had been accidentally shot.

Defendant's Story Discredited.
The dead man's body was carried to

TAFT TO VISIT PANAMA CANAL

PRESIDENT WILL PUT THE NEW GOVERNMENT FOR THE ZONE INTO EFFECT.

Washington, Dec. 9.—President Taft's plans for a trip to Panama today advanced to a point where December 19 was tentatively selected as the date of starting. It is understood Taft's intention to visit the isthmus before he goes out of office was influenced partly at least by President-elect Wilson's decision not to do so. Under the new law the president is charged with putting into effect the new government for the canal zone. It is said Taft would have been aided if Wilson had determined to make the trip to the canal to perfect the new government after he came into office.

FEELING AGAINST AUSTRIA AGAIN RIFE IN SERBI

Belgrade, Dec. 9.—An accumulation of Austrian troops on the Serbian frontier and the provocative language of the Viennese newspapers has led to a renewal of excitement and embitterment of feeling in Serbia. The newspaper, Prava, voices the prevailing irritation, saying: "If Austria desires war with Serbia let it come. Austria will have to exterminate the entire Serbian nation before conquering it." Many Serbians visiting in Austro-Hungarian frontier towns have been arrested charged with spying. Serbia has protested to the Austrian authorities.

Higher Rates Unreasonable.
Washington, Dec. 9.—Increases in freight rates on potatoes, ranging from half a cent to eight cents per hundred from points of production in Nebraska, Colorado and similar territory, to all destinations east, today were held by the interstate commerce commission as unreasonable. The suspension of the proposed advances is made permanent, and the existing rates are ordered maintained for at least two years.
